

PBC 4TH WEEK · JUNE 28 – JULY 4, 2026

The Greatest Moment — Staff Companion App

How to install it, keep it updated, and add your duties to your phone. Works on iPhone & Android · Works offline at camp.

This is your schedule, classes, roster, and handbook — all on your phone. No app store, no account. That handsome logo is this year's theme: **The Greatest Moment — The Miracle in Your Life.**

WEBSITE

a6steve.github.io/pbc-companion

PASSWORD

greatestmoment

1 Install it on your phone · one time · needs internet

iPhone / iPad — use Safari

- 1 Open **Safari** and go to **a6steve.github.io/pbc-companion**
- 2 Type the password **greatestmoment**, tap **Decrypt & Open**. (Tick **Remember me** so it won't ask again.)
- 3 **With the app open and unlocked**, tap the **Share** button (square with an up-arrow).
- 4 Scroll down, tap **Add to Home Screen**, then **Add**.

On iPhone, Chrome works the same way (it uses Safari underneath).

Android — use Chrome

- 1 Open **Chrome** and go to **a6steve.github.io/pbc-companion**
- 2 Type the password **greatestmoment**, tap **Decrypt & Open**. (Tick **Remember me**.)
- 3 Tap the **⋮** menu (three dots, top right).
- 4 Tap **Add to Home screen**, then **Add**.

Add it to your home screen after you unlock the app — that's what gives you the pretty theme icon and lets it work offline. Adding it from the password screen misses both.

2 Internet & offline — how it works

- You need **internet to install** it and to **get updates**.
- Once installed, the app **works fully offline** — perfect for camp's spotty signal.
- **Before you head to camp**: open it once while you still have signal so it saves itself for offline use and grabs the latest version.

3 Refresh it — get the latest before you lose signal

- The app updates itself: just **open it while you have signal** and it quietly loads the newest version.
- To confirm you have the latest, check the **version & date** at the very bottom of the app.
- **Do this before you lose connectivity at camp** — once you're offline you'll keep whatever version you last opened.

4 No signal at camp? Update by AirDrop / share

Since most of camp has little or no signal, schedule updates may need to be hand-delivered device-to-device.

iPhone → iPhone (AirDrop)

- 1 The leader **AirDrops you the app file** (e.g. **PBC_2026_Staff_Companion.html**).
- 2 Tap **Accept**, then open it in **Safari**.
- 3 Enter **greatestmoment** — you'll see the updated schedule.

To Android (no AirDrop)

- 1 The leader sends the same file by **text, email, or shared link**.
- 2 Open it in **Chrome**.
- 3 Enter **greatestmoment** to view the update.

Important: a hand-delivered file shows the latest **Schedule, Handbook, and Staff** info offline — but the **Calendar** and **PDF** buttons inside it need internet to work. So **import your calendar and grab any PDFs while you still have signal** (see below).

5 Add your duties to your calendar

Do this while you have internet. It only adds **your** duties to **your** phone — nobody else sees them.

- 1 Open the app → **Staff** tab → pick **your name**.
 - 2 Tap **Add my duties to Calendar**.
 - 3 **iPhone:** tap **Add All** when your calendar opens. **Android:** confirm the import in Google Calendar.
- Each duty gets a **15-minute heads-up**, and the reminders **work offline** once they're added.
 - **Android / Google (Pixel) phones:** if no reminder pops up, open Google Calendar → **Settings** and set a default notification.

6 Reminders on your phone & Apple Watch

- **15 minutes before** each duty you'll get a **quiet alert + vibration** — only on **your** phone, never camp-wide.
- **Apple Watch:** it taps your wrist and shows your duties in the Watch's Calendar — automatic, nothing to install.

7 Where to find things — tabs across the top

Welcome — a word from the director, the week's theme, and the printable PDFs.

Handbook — rules, duty guidelines, emergency & lockdown steps, spiritual-conversation questions.

Who Decides — who to go to for what.

Schedule — the full daily schedule with every duty and note.

Classes — the Bible class rotation; pick a day and team color.

Staff — search a name to see their whole week, plus the Calendar button.

Tip: any underlined name in the app is tappable — tap it to jump to that person's full week.

8 Prefer paper?

There are printable **Schedule** and **Handbook** PDFs on the **Welcome** tab — same content, no phone needed... if you'd like to carry a bunch of trees along with you all week.

9 Quick troubleshooting

- **It opened as a page of code.** Your mail/app previewed it as text — use **Open in Safari/Chrome** instead.
- **My name isn't found.** Check the spelling as it appears on the schedule (e.g. "Steve" vs "Steven"). Still missing? You may not have an individually assigned duty — ask your head counselor.
- **The Calendar / PDF button did nothing.** Those need internet — try again when you have signal.
- **I lost the link.** Just re-type the website and password above and reinstall.
